

Join us for an educational webinar

Tuesday, July 14, 11:00 – 12:00

Navigating the Rapidly Changing Landscape of Nicotine

**Health Canada Regulation, Harm Reduction and
Clinical Considerations**

To register or find out more about this webinar, please contact us at movingon@nosm.ca

Overview

How to Know What's Approved for Sale in Canada

The Health Canada nicotine regulation framework can be used as a *simple* tool for navigating the nicotine landscape.

Harm Reduction, Perspectives on Safety, and Partial Truths

Is cigarette smoke really the danger, not nicotine?

Clinical Considerations

When to encourage or discourage new nicotine products.

Presenter: Patricia M. Smith, PhD

Associate Professor and Co-Chair Social and Population Health,
Northern Ontario School of Medicine (NOSM University)

Adjunct Professor, Department of Psychology, Lakehead University

This event is made possible through the Moving On to Being Free Smoking/Vaping Cessation Program, funded by the Ministry of Health and Long-term Care.
